EDUCATION

B.Tech — CSE

Invertis University

Expected 2029

CGPA: 7.2/10

Class XII

Bhoo Devi Varshney Inter College

2024 • 73.5%

Class X

Bhoo Devi Varshney Inter College

2022 • 85.33%

TECHNICAL SKILLS

- Java
- JavaScript
- HTML • CSS
- Data Structures & Algorithms
- Object-Oriented Programming
- Problem Solving
- ESP32 • IoT
- Bluetooth / Wi-Fi

TOOLS

- Git
- GitHub
- VS Code

INTERESTS

- Software Development
- IoT & Embedded Projects
- DSA
- Web Development
- Video Editing

ANSH MAHESHWARI

B.Tech Computer Science & Engineering • Software Development

PROFESSIONAL SUMMARY

Computer Science & Engineering undergraduate with hands-on experience in Java and IoT-based projects. Interested in software development, DSA and practical problem solving. Currently strengthening Java/DSA skills, learning video editing, and preparing for CDS alongside academics.

PROJECTS

ESS — Emergency Safety System

IoT-Based Women Safety System

- Worked on an ESP32-based wearable safety concept for emergency communication and alerts.
- Explored emergency activation, trusted-contact location sharing, and Bluetooth/Wi-Fi connectivity.

Tech: ESP32 • IoT • Bluetooth/Wi-Fi

IoT-Based Water Quality Monitor

Environmental Monitoring • IoT

- Worked on an IoT-based concept for monitoring water-quality parameters through sensor-based data collection.
- Explored practical monitoring concepts for environmental assessment and water-safety applications.

Tech: IoT • Sensors • Embedded Systems

Student Grade Tracker

Java • Console Application

- Developed a Java application to track and manage student grades and performance data.
- Applied Java fundamentals, OOP concepts and problem-solving logic.

Tech: Java • OOP

Hotel Reservation System

Java • Console Application

- Developed a Java application for managing hotel reservation-related operations.
- Applied object-oriented programming and structured application logic.

Tech: Java • OOP

ADDITIONAL DEVELOPMENT

Video Editing — Currently Learning

- Developing practical video-editing skills alongside academics and programming.

CDS Aspirant — Ongoing Preparation

- Following structured self-study alongside B.Tech, emphasizing consistency, discipline and time management.

PROBLEM SOLVING

- Practicing Data Structures & Algorithms using Java, including arrays and fundamental algorithms.
- Strengthening Java fundamentals, OOP and logical problem-solving skills.

CORE STRENGTHS

Problem Solving • Self-Learning • Time Management • Discipline • Adaptability • Team Collaboration
