ANSH MAHESHWARI

B.Tech Computer Science & Engineering | Invertis University
6397528250 • maheshwariansh478@gmail.com • github.com/HackWithAnsh • linkedin.com/in/hackwithansh

PROFESSIONAL SUMMARY

Computer Science & Engineering undergraduate with hands-on experience building Java and IoT-based projects. Strong interest in software development, Data Structures & Algorithms, and practical problem solving. Currently strengthening Java and DSA skills while developing video-editing skills and preparing for CDS alongside academics.

EDUCATION

B.Tech — Computer Science & Engineering | Invertis University | Expected 2029 | CGPA: 7.0/10
Class XII | Bhoo Devi Varshney Inter College | 2024 | 73.5%
Class X | Bhoo Devi Varshney Inter College | 2022 | 85.33%

TECHNICAL SKILLS

Programming: Java, JavaScript | Web: HTML, CSS
Core: Data Structures & Algorithms, Problem Solving | Tools: Git, GitHub, VS Code
IoT: ESP32, Bluetooth/Wi-Fi

PROJECTS

ESS — Emergency Safety System
IoT-Based Women Safety System
- Worked on an ESP32-based wearable safety concept for emergency communication and alerts.
- Explored emergency activation, location sharing with trusted contacts, and Bluetooth/Wi-Fi connectivity.

Technologies: ESP32, IoT, Bluetooth/Wi-Fi

IoT-Based Water Quality Monitor
Environmental Monitoring | IoT
- Worked on an IoT-based solution for monitoring water-quality parameters through sensor-based data collection.
- Explored real-time monitoring concepts for environmental assessment and practical water-safety applications.

Technologies: IoT, Sensors, Embedded Systems

Student Grade Tracker
Java | Console Application
- Developed a Java-based application for tracking and managing student grades and performance data.
- Applied Java fundamentals, OOP concepts, and problem-solving logic.

Technologies: Java, OOP

Hotel Reservation System
Java | Console Application
- Developed a Java-based application for managing hotel reservation-related operations.
- Applied object-oriented programming and structured application logic.

Technologies: Java

ADDITIONAL DEVELOPMENT

Video Editing — Currently Learning
- Developing practical video-editing skills alongside academics and programming.
- Exploring editing workflows and improving creative and visual communication.

CDS Aspirant — Ongoing Preparation
- Preparing for the Combined Defence Services (CDS) examination alongside B.Tech.
- Following a structured self-study routine that emphasizes consistency, discipline, and time management.

PROBLEM SOLVING

- Practicing Data Structures & Algorithms using Java, including arrays and fundamental algorithmic problems.
- Strengthening Java fundamentals, OOP concepts, and logical problem-solving skills.

CORE STRENGTHS & INTERESTS

Problem Solving • Consistent Self-Learning • Time Management • Discipline • Adaptability • Team Collaboration
Software Development • Java • DSA • IoT • Web Development • Video Editing
